WELCOME TO THE...

## INNOVATION FESTIVAL FOR GLOBAL WORKING

Welcome to this truly unique keynote session with astronaut Tony Antonelli. We will explore how to push the boundaries of innovation and leadership and inspire you and your team to greatness. Tony's three presentations and the discussions that follow are an unprecedented opportunity to tease out how you can take your international business to the next level.

This afternoon, expand these themes with our keynote panel. They will discuss in dialogue with our host, Jayne Constantinis, how innovation is impacting international businesses, global mobility and education, and share with you the emergent trends supporting new ways of working.

The two interactive, informal and expert-led Hub streams that follow provide further opportunity to exchange valuable cross-sector insights and explore new concepts and solutions.

We also welcome back Sarah Rozenhuler, renowned author and psychologist, for a timely and impactful leadership workshop exploring the power of dialogue for change, which will further energise your thinking and accelerate innovation.

Then it is time to celebrate in style as we reveal the winners of the 2023 Awards! Enjoy a taste of Kent in great company in our glorious countryside setting - a fantastic place to make connections. Find out too about how you can continue all today's conversations year-round in our membership community of global business experts, decision-makers and aspiring leaders as you navigate your business to future success.
